

## COLOR-ONS

What are COLOR-ONS? They are transfers that we now have for each of our youth gardening national contest sections. There is one for Big Pumpkin, Giant Sunflower, Container Gardening, Favorite Flowers and Perfect Plants. Also, we have one for our year-round Octopus recognition program. Color-ons can be ordered by the club from national to be used however they wish and whenever they wish. Simply color the transfer, then position it on the white or light colored shirt (to be brought in by the youth or adult) image side down and press for 30-40 seconds. Next, let it cool, remove paper backing and wear. They can also be used to put on bags, etc. Directions are on the back of the transfer paper. If clubs are doing this at a meeting all you need are the color-ons, some crayons and an iron. You can provide shirts if you want or just have them bring their own. This is a good way to attract youth, parents and grandparents to your meeting or special event.
