

THE AMAZING GARDEN WEATHER YARN DOLL.

How you make it.

1. Cut 16 pieces of yarn 8 inches long.
2. Fold the yarn strands in half and tie them in the middle with a 12 inch yarn piece. (This will secure all the yarn pieces and form a tie to hang the doll up later. This will be the top tie.)
3. Go down about 1 inch and tie all the yarn strands together to create the head. Use a new strand of yarn about 7 inches long. This will be the neck tie.
4. Make the arms. Cut 22 yarn pieces 3 inches long and tie together at both ends with a new piece of yarn 3 inches long. This will make the wrist tie.
5. Divide the total amount of strands at the neck tie from front to back. Lay the arms between this division, then tie under the arm pack to make the waist tie with a new strand of yarn 5 inches long.
6. Girl doll: trim skirt evenly.
7. Boy doll: divide all strands from waist tie evenly into two legs and tie off each leg with a 3 inch long yarn strand to make the ankle tie. Trim the bottom of the pants legs evenly.

CAUTION:

Once the doll is made,
Read instructions with
Care before using!

HANG OUTSIDE YOUR WINDOW

1. If doll is stiff ... it's freezing
2. If doll is wet ... it's raining
3. If doll is dry ... weather's fair
4. If doll is smoking ... it's hot
5. If doll is limp ... it's humid
6. If doll is waving ... it's windy
7. If doll is gone ... it's a tornado
8. If doll is black ... wash your windows
